--------------------------------	--

## TOILET TRAINING AND DIAPERING

In the absence of developmental delay or a physical or mental disability, students entering preschool, kindergarten or other grades at Centre School must be toilet trained before attending school. Trained implies that a student has bowel and bladder control, is rarely, if ever incontinent, recognizes and can indicate the need to void, and can manage self-care needs with little to no assistance in the bathroom.

Every attempt is made to maintain a discreet environment. In the event a child needs assistance with toileting or changing, one adult may be available to assist the student as needed with a second adult nearby. Universal precautions shall be maintained at all times when handling bodily fluids.

If at anytime a staff member feels that the situation warrants parent attention and student dismissal a parent contact shall be made.
