D. Student Health Records

Physicians' written orders and the written authorization of parents or guardians should be filed with the student's cumulative health record and kept for a period of time as determined by the New Hampshire Dept. of Education's Records Retention Schedule. Health Records concerning students who receive Special Education services should be retained as long as the student is in a special education program and there is district liability for the education of the student.

An appropriate summary completed at least once every school year for each medication prescribed and taken should become part of the student's health record.

The State law forbids any child for any reason to take medication without written permission of the child's Parent or legal Guardian. Permission slips are available at the Nurse's office.
